LIGHTING

# GTLED PRO

High-performance tunnel lighting from entrance to exit

## LIGHT THAT LASTS – FOR ANY TUNNEL

### LIGHTING COMFORT

GTLED Pro's precise lighting distribution delivers uniform light with high comfort. Thanks to a low threshold increment (TI<6), it improves safety while ensuring optimum visual performance for tunnel users.

### LONG-LASTING PERFORMANCE YET WITHOUT COOLING FINS

GTLED Pro benefits from a long-life LED engine, thanks to excellent thermal management with no cooling fins and an anti-dust retention/collecting body canopy design. Moreover, it uses a careful combination of materials that meet the highest levels of corrosion protection (C5), to withstand the aggressive environment of tunnels.

### COMPREHENSIVE RANGE

GTLED Pro offers a wide range of optics to suit many tunnel configurations. It is a versatile solution with five luminaire sizes and remote gear boxes to fit perfectly with the four lighting zones. GTLED Pro benefits from a complete range of controls and new possibilities for continuous row installation.

### EASY MAINTENANCE AND INSTALLATION

GTLED Pro is designed to keep maintenance simple. It can be installed quickly, thanks to its compact, lightweight design and remote gear box. It is delivered with toolless connectors and intuitive brackets for mounting.

### APPLICATIONS

All types of underpasses and road tunnels, including urban and suburban, sub-water and mountain. Suitable for adaptation/transition (zone), transition, interior and exit lighting zones.

# A COMPLETE TUNNEL LIGHTING FAMILY

**GTLED PRO S**  
12-48L up to 20 klm (25°C)

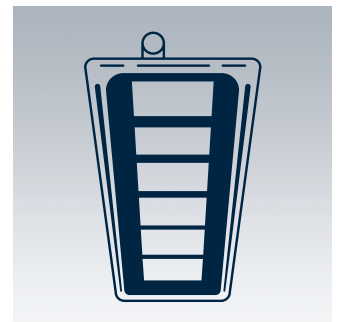

**GTLED PRO MS**  
12-48L up to 20 klm (25°C)

**GTLED PRO M**  
72-108L up to 33 klm (25°C)

**GTLED PRO L**  
144L up to 46 klm (25°C)

**GTLED PRO XL**  
216L up to 69 klm (25°C)

## TECHNICAL DATA

### MATERIALS AND FINISH

- Body size S – die-cast aluminium EN 44300
- Body sizes MS / M / L / XL – extruded profile in aluminium 6060 T6 and end cap in die-cast aluminium EN 44300
- Enclosure: toughened glass (4 mm)
- External screws: A2 with anti seizing treatment
- Glass holder: 316L stainless steel with anti seizing treatment
- Finish: powder coated white, RAL 9016

### INSTALLATION AND MOUNTING

- Luminaire mounting: choice of brackets for ceiling or wall mounting with inclination settings (to be ordered as accessories)
- Gear Box: Pre-wired, 1,5 m cable, with bracket included

### CONTROLS

- DALI or Bi-Power Line (BPL)
- Monitoring system to manage luminaires (LITECOM)

### ACCESSORIES

- Luminaire brackets
- Cable junction cables for luminaire loops

Up to  
170 lm/W
